

H4 Series

ROUGH TERRAIN FORKLIFT

BUILT TO OUTWORK THE COMPETITION

Among the narrowest true rough-terrain forklifts on the market, the **HARLO H4 Series** is built for the jobs that stop wider equipment cold: narrow rows, tight aisles, and vegetation that grows in close. Powered by a John Deere or Cummins engine delivering 74 HP without DEF or a diesel particulate filter, it's built to keep running through harvest and every time-sensitive job on the schedule.

THE HARLO DIFFERENCE

Every Harlo machine runs on three promises: rugged performance, real partnership, and everyday usability. That's the difference our customers count on.

Rugged Performance

Get more work done, faster, with fewer interruptions.

Real Partnership

You don't just get a machine. You get a partner.

Everyday Usability

Equipment that works hard without making your job harder.
