HARLO
ROUGH TERRAIN FORKLIFTS

H12 Series
ROUGH TERRAIN FORKLIFT

BUILT TO OUTWORK THE COMPETITION

The **H12 Series** is a heavy-duty, rough-terrain forklift built for high-capacity work in construction, forestry, steel, and lumberyards. It's also a popular yard unit for dealers, especially John Deere dealers. It outworks the competition with faster travel speeds, efficient load-sensing hydraulics, and easier serviceability, powered by a John Deere or Cummins Tier 4 Final engine for reliable performance on the toughest sites.

THE HARLO DIFFERENCE

Every HARLO machine runs on three promises: rugged performance, real partnership, and everyday usability. That's the difference our customers count on.

Rugged Performance

Get more work done, faster, with fewer interruptions.

Real Partnership

You don't just get a machine. You get a partner.

Everyday Usability

Equipment that works hard without making your job harder.
